

About Us

The IPA, founded in 1983, has as its objectives to foster the dissemination of knowledge concerning permafrost and to promote cooperation among persons and national or international organizations engaged in scientific investigation and engineering work on permafrost. The IPA is an affiliated organization of the International Union of Geological Sciences (IUGS).

INTERNATIONAL PERMAFROST ASSOCIATION

"Fostering permafrost research to the ends of the Earth"

IPA Activities

The IPA coordinates and initiates research and outreach activities relating to permafrost science and engineering and collaborates with other major international programs and organizations interested in polar and mountain environments.

- Organizes International Conferences on Permafrost and Regional Conferences on Permafrost
- Supports monitoring through the Global Terrestrial Network for Permafrost (GTN-P)
- Funds Action Groups
- Recognizes excellence through its prizes and awards
- Provides support for educational activities related to permafrost

Membership

Membership of IPA is open to all individuals, institutions and countries interested in conducting, supporting or promoting research on permafrost science and engineering.

Membership is through adhering national organizations (Members of Council) or as individuals.

26

IPA Country Members

OVER
750

Individual Members
(from more than 48 countries)

(Status: Apr. 2015)

Benefits

Why become a member?

- Discount rate for IPA-related conferences/meetings*
- Travel grant for students and young scientists to attend the International Conferences on Permafrost*
- Welcome gift*
- Registration to the mailing list "Permalist" (including latest publications, job opportunities, etc.)
- Opportunity to receive IPA prizes and awards
- Access and opportunity to contribute to IPA publications

*Benefits only for paying members
